## THE BEGINNER'S GUIDE TO AMATEUR RADIO

Prentice-Hall, Englewood Cliffs, NJ, 1982. Hardcover. Book Condition: New. 1st Edition. The number line on the copyright page ends in 1. 182 page hardcover, includes quite a few captioned pictures, a Glossary, and an Index. "Compiled by members of the headquarters staff of the American Radio Relay League, the United States and Canadian organization 'of, by and for the amateur,' this book is packed with easy-to-understand information that will provide the groundwork for entering the exciting, ever-expanding world of amateur radio. This book provides everything the beginner in radio should know to prepare to join the million-plus amateurs worldwide who are able to cut across the boundaries of distance to make friends the world over. No other hobby can make that claim! The book covers all areas of this fascinating pastime - setting up a station, building a simple wire antenna, getting into a licensing class to prepare for an amateur radio license, getting involved with the many specialized activities, such as satellite communications and DXing (communicating over long distances). From the earliest days of radio, when Marconi labored for years to span the Atlantic via radio waves, amateur radio operators have been at the forefront of communications technology. Yet it doesn't take a great deal of technical skill to qualify for an amateur radio license and enter a world that most people just dream about." New, unread copy: spine square/light bumping and wear at head/heel, TINY bit of wear at corners of boards else the book is perfect (pages white) with NO markings throughout. The dj is new too I suppose but it has a few issues so I downgraded it: light to medium rubbing (mostly on back), head/heel of spine bumped with one tiny chip at head, light bumping at corners, some creasing at upper edge else it's...
