A K Peters/CRC Press, 2006. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "Batterson's detailed rendition of Abraham Flexner's negotiations with a number of the most eminent mathematicians of the 1930s will delight anyone who has ever served on a faculty search committee. Despite some reversals, Flexner successfully recruited Albert Einstein, Oswald Veblen, Hermann Weyl and John von Neumann, all Europeans, and James W. Alexander and Marston Morse, both Americans. Batterson includes descriptions of each man's achievements and importance to the field of mathematics, as well as the social context in which recruitment activities took place, including rising anti-Semitism in Germany, and anti-Semitism in the United States, including Princeton." -Sarah Boslaugh, MAA Reviews, October 2006 "The book is based primarily on a meticulous study of the institute's documentary records. Batterson tells a fascinating story." -John Stachel, NATURE, January 2007 "Pursuit of Genius is a night-table book, an enjoyable read. . . The book is a story, not a history. . . Many will enjoy reading the connections between the Institute and mathematicians, such as George Birkhoff, Einstein, Kurt Godel, Felix Klein, John von Neumann and Hermann Weyl." -Donald Cook, Mathematiciacl Reviews, May 2007 "This is the best book that has yet been written about the Institute. The history of the first nine years is unexpectedly melodramatic, full of quarrels and misunderstandings, power struggles and deceptions." -Freeman Dyson, IAS, June 2007 "This interesting book. shows the life and scientific activities and contributions of intellectual leaders from the institute as well as political, economic, and personal situations, conflicts, and intrigues that influenced and determined the future of the institute. The book can be recommended to anyone who is interested in mathematics and its history." - EMS, November 2007 Institute for Advanced Study occupies...
